■ About PorphyChem®

PorphyChem® is a chemical company specialized in the synthesis of chromophores and fluorophores such as porphyrins, phthalocyanines and related compounds. Our products are key precursors for research and industrial use in the fields of health, environment and energy.

The mission of PorphyChem® aims to help you to reach your goals while improving quality, reducing global cost and saving time. In this sense, PorphyChem® offers a large panel of products and services to fulfill both industry and research needs.

Dr. Benoit
HABERMEYER

CEO

■ Our Commitments

→ COMPETITIVE PRICES!

With extensive experience in scientific research, we understand our customers needs and we work hard to ensure competitive pricing across our product portfolio.

→ PRODUCTS YOU CAN TRUST!

This quality requirement is an essential and daily commitment of PorphyChem®. Our production facilities allow to carry out synthesis reactions in accordance with the standards of quality and safety.

→ EXCLUSIVE PRODUCTS!

Our R&D department, supported by our Scientific Advisory Board, constantly develops new compounds and cost-efficient synthetic routes to provide valuable range of research products that you do not find elsewhere.

Expertise and Services

Based on more than 35 years of experience in porphyrin chemistry, PorphyChem® fields of expertise range from the design to the manufacture of chromophores and fluorophores for a specific application.

"MAKE OR BUY"

The lack of highly specialized know-how, of facilities to carry out syntheses or to save time are fundamental economical reasons to cooperate with an experienced company like PorphyChem®.

SCALE-UP TO BULK QUANTITIES

PorphyChem® production capabilities consist in high capacity reactors. Our engineering resources compliment our manufacturing capabilities allowing us to supply valuable products from milligram to kilogram.

CUSTOM SYNTHESIS

As our catalogue selection cannot meet all your needs, we contract synthesis services in all areas of research in relationship with our know-how. For any request about custom synthesis, please contact us.

INDUSTRIAL SCALE

Through its partnerships with qualified manufacturers, PorphyChem® can supply porphyrins and related compounds on an industrial scale (up to tons) with the same high level of quality as our catalogue products.

PROVISION OF SCIENTIFIC RESEARCH

If you need tailored advice to know which product will satisfy your requirements, PorphyChem® can also assist you in your research and propose you the product that matches your target.

GMP

PorphyChem® developed a network of partners to supply products in accordance with the international standards of Good Manufacturing Practices (GMP). For any request, please contact us.

DIPYRRRYLMETHANES

5-dipyrrylketone

Catalog No.: 064
Purity: >95%
CAS 15770-21-5
